First referee (representing a UEFA member association)

Surname:

First name:

Position:

National
association:

Second referee (professor at a university or equivalent institute other than that of the applicant)

Surname:

First name:

Position:

Compulsory documents (to submit with this application form):

- An application document of no more than ten pages, describing the proposed research (the Research Grant Programme Regulations give full details of the information required).
- A one-page summary of the application document;
- An ethical clearance letter if required for the planned research – particularly for medical research and research involving minors.
- A CV of no more than one page.
- A copy of the applicant's passport or national identity card;
- Proof of registration as a university doctoral student or copy of doctorate certificate and proof of employment at a university or equivalent institution;
- Copies of two academic articles published by the applicant in peer-reviewed journals or presented at an academic conference.
- Two letters of recommendation: one must be signed by a professor at a university or equivalent institution other than that of the applicant; the other must come from a representative of a UEFA member association. If several national associations support the same research project, only one letter is required and it must be signed by the 'lead' national association. The letters of recommendation must attest to the importance of the proposed research (in academic terms, for the national association(s) concerned and for European football in general) and the quality of the applicant. They must be written on official headed paper and scanned. In the case of an applicant resubmitting an application on a similar topic, the same letters of recommendation can be used as in the first application.
- The declaration to UEFA duly completed and signed by the applicant (document available at www.UEFA.org).

Applications must be emailed to universities@uefa.ch. They must reach UEFA by 31 March 2017 (24.00CET) in order to be considered for the 2017/18 Research Grant Programme.

Applications that do not conform to the naming conventions outlined in point 2.3 of the UEFA Research Grant Programme Regulations will not be considered. The UEFA administration will acknowledge receipt of all applications by email.

I have read and understood the rules relating to UEFA Research Grant Programme applications.
